

Marcus Herrera

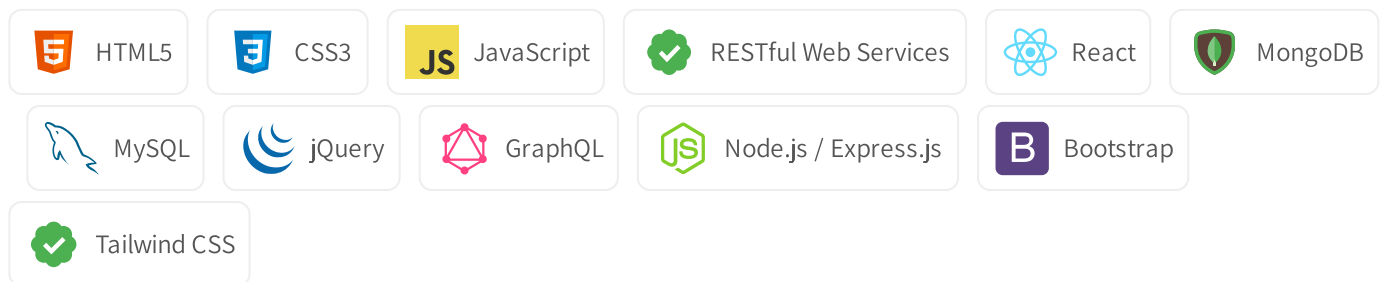

Full Stack Developer

Full Stack Developer with a proven ability to collaborate effectively with team members. A passion for both personal growth and for web development. Attended a coding bootcamp to learn new languages while sharpening existing skills. Excited to leverage skills as part of a fast-paced, quality-driven team to build better experiences on the web.

 Denver, CO, USA

Projects

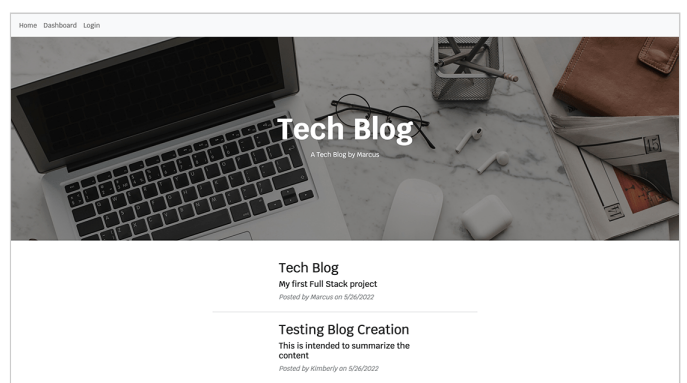

Project Tracker

React progressive web app to keep track of your current, and future projects.

<https://github.com/mahiv87/Project-Tracker>

<https://project-tracker-303.herokuapp.com/>

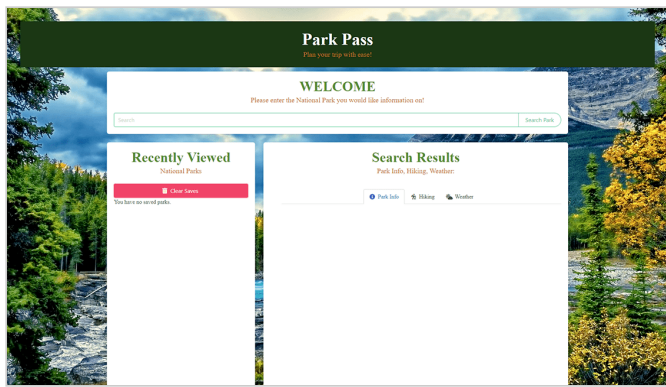

Tech Blog

Full Stack CMS-style blog site for all things tech.

<https://github.com/mahiv87/Tech-Blog>

<https://calm-gorge-51353.herokuapp.com/>

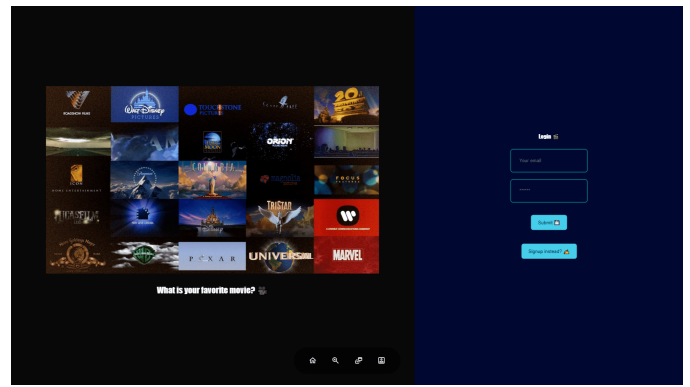

Park Pass

Web app that allows you to search for National Parks. My role in this project was to integrate the Google Maps API.

<https://github.com/gokubblue007/Park-Pass>

<https://gokubblue007.github.io/Park-Pass/>

MoovySpace

A platform for cinephiles to log movies they've watched, star movies that they particularly liked, and see what movies other users have liked. My role in this project was build the all aspects of the database using GraphQL.
